  - Data Analytics & Business Intelligence
  - Leadership & Mentoring
  - Executive Reporting
  - Trend Analysis & Benchmarking
  - Requirements Gathering & Analysis
  - Power BI Dashboard Development
  - KPI Development & Performance Monitoring
  - Data Visualization & Storytelling
  - Stakeholder Management
  - Cross-Functional Collaboration

- **Technical Skills**
  - **Business Intelligence:** Power BI, DAX, Power Query
  - **Analytics & Reporting:** KPI Reporting, Executive Dashboards, Trend Analysis, Benchmarking, Survey Analytics
  - **Microsoft Tools:** Advanced Excel, Pivot Tables, VBA, Power Query, Advanced Formulas
  - **Data Management:** Data Validation, Data Quality Assurance, Data Governance

CERTIFICATIONS

- **Certifications**
  - Microsoft Power BI Desktop: Advanced DAX for Data Analysis – Udemy
  - Data visualization with Power BI – Great Learning
  - Google Analytics Individual Qualification - Great Learning

WORK EXPERIENCE

Timesworld Media and Technology Solutions **October 2022 – February 2026**
Senior Data Analyst *Trivandrum, India*

- Delivered analytics and business intelligence support for large-scale international exhibitions, trade events, and business initiatives across the Middle East, providing actionable insights on attendee engagement, participation trends, stakeholder feedback, and overall event performance.
- Developed interactive Power BI and Excel dashboards that enabled leadership teams to monitor KPIs, analyze business trends, track operational performance, and support data-driven decision-making.
- Designed and implemented database architecture and data visualization frameworks for research and analytics projects, facilitating efficient data analysis, reporting, and presentation of findings to stakeholders.
- Conducted data analysis and developed interactive dashboards for market research and brand perception studies, evaluating stakeholder awareness, engagement metrics, customer sentiment, and market positioning to support strategic business initiatives.
- Managed and maintained large-scale marketing and business databases across multiple international regions, ensuring data accuracy, integrity, compliance, and effective support for reporting and business operations.
- Performed advanced analytics, including trend analysis, benchmarking, statistical evaluations, and survey-based research to identify performance gaps, revenue opportunities, and process improvement initiatives.
- Collaborated with cross-functional stakeholders across operations, marketing, product, and management teams to gather requirements and translate business needs into analytical solutions, dashboards, and actionable insights.
- Established and maintained data quality, governance, and validation standards across reporting processes while delivering executive dashboards, analytical summaries, and performance reports to support strategic decision-making.
- Mentored junior analysts and interns on data analysis methodologies, dashboard development, reporting best practices, and business intelligence processes, contributing to team development and knowledge sharing.

Stream Perfect Global Services **November 2017 – May 2022**
Process Analyst *Kochi, India*

- Collected, organized, and analyzed large volumes of operational data and documentation to support business processes, reporting requirements, and data-driven decision-making.
- Developed and maintained Excel-based reporting models utilizing advanced formulas, Pivot Tables, VBA automation, and data validation techniques to improve reporting accuracy, efficiency, and turnaround time.
- Conducted data validation, quality assurance, and document reviews to ensure accuracy, completeness, and compliance with organizational standards.
- Collaborated with cross-functional teams to gather, verify, and maintain critical business information, ensuring the integrity and availability of operational records.
- Monitored workflow progress and operational performance through tracking systems and periodic reporting, supporting process visibility and timely issue resolution.
- Identified opportunities for process improvement and reporting automation, contributing to increased operational efficiency and streamlined business processes.

EDUCATION

TKM Institute of Technology **2013-2017**
Bachelor of Technology (B. Tech), Computer Science and Engineering *Kollam, India*
